

Maksim Skutin

DevOps Engineer

Singapore, SG

<https://cv.maks.pw> meskutin@gmail.com

[in mskutin](#) [mskutin](#) [mskutin](#) [mskutin](#) [mskutin](#)

Continuous progress on professional and personal fronts through all round skills with emphasis on assigned targets.

SKILLS

DevOps

ci/cd pipeline as code
infrastructure as code
documentation as code
monitoring as code
blameless culture retrospective
postmortems
immutable infrastructure
automation chatops gitflow
github flow live business metrics

Continuous Integration

jenkins pipelines
bitbucket pipelines teamcity
bamboo

Scripting

bash powershell nodejs

Codestyle

sonar stylecop rubocop
breakman eslint

Configuration Management

ansible packer vagrant
docker

Microsoft Azure

app services functions
traffic manager azure storage
application insights
automation runbooks logic apps
ms sql redis

Observability

sentry application insights
prometheus alert manager
grafana cadvisor
nodeexporter custom exporters

Tech Stack

serverless nodejs ruby on rails
asp.net web api spring boot

Containerization

docker docker compose
aws ecs

Issue Tracking

jira redmine github issues
waffle trello

Amazon Web Services

vpc ec2 s3 cloudwatch
ecs/ecr lambda api gateway
cloudfront cam route 53
beanstalk elasticsearch sqs
kinesis rds dynamodb iam

IaC

terraform cloudformation
arm templates

Build and Package Management

make gradle maven ant
msbuild bundler npm yarn
fastlane

Logging

elasticsearch logstash kibana
cloudwatch logs

Linux

ubuntu centos/rhel

WORK EXPERIENCE (3)

- serverless

DevOps, Cloud Infrastructure and Continuous Delivery Engineer at BandLab August 2014- August 2016

<https://www.bandlab.com>

Operating, maintaining and supporting the entire business' infrastructure for all groups, including Android, iOS, Web front-end and back-end departments at all lifecycle. Building the product release, establishing and improving a build workflow. Continuous delivery into dev/stage/production environments. Preparing the final release notes and notification of release completion. Strong focus on rapidly developing automated build, package and deployment processes which have the ability to handle multiple variants of the same codebase. Design and implementation various deployment strategies.

Configuration Manager, Java Developer at Luxoft September 2012- August 2014

<https://luxoft.com>

Provided infrastructure support to development team. Supported development activities so that developers and QA Engineers have appropriate workspaces to build and test their work, and so that all artifacts are available for inclusion in the deployment unit as required. Also had to ensure that the environment facilitates product review, and change and defect tracking activities and also responsible for writing the CM Plan and reporting progress statistics based on change requests.

EDUCATION (1)

Specialist degree (MCS) Computers, complexes, systems and networks at Omsk State Technical University
2008 - 2013

design patterns

aws certified solutions architect - associate 2018-2020

linux foundation certified engineer course (lfce)

LANGUAGES

Russian

Native or bilingual proficiency

English

Full professional proficiency
